**Thursday, October 27<sup>th</sup>, 8:00 AM – 5:00 PM CST**  
**The Palmer House**  
**17 E Monroe St.**  
**Chicago, IL 60603**

This program was developed by the American Pharmacists Association and is delivered in partnership with the Illinois Pharmacists Association. This offering is supported by an educational grant from Merck.

**Pharmacy-Based Immunization Delivery** certificate training program is a 20-hour innovative, intensive, and practice-based continuing pharmacy education, based on national educational standards for immunization training from the Centers for Disease Control and Prevention. This program is designed to educate pharmacists and student pharmacists about the professional opportunities for vaccine advocacy and administration. This practice-based curriculum represents a fusion of science and clinical pharmacy. The program, which emphasizes a health care team approach, seeks to foster the implementation of interventions that will promote disease prevention and public health.

**Pharmacy-Based Immunization Delivery** certificate training program has three components: online interactive self-study with assessment; the live seminar with online final assessment; and hands-on assessment of intramuscular and subcutaneous injection technique. A Certificate of Achievement will be awarded to participants who successfully complete all program components, including an evaluation.

The American Pharmacists Association is accredited by the Accreditation Council for Pharmacy Education as provider of continuing pharmacy education.
